FAST THE DOCK TO A SURFACE

To securely fasten the 4 Slot Dock Ethernet to tables, desks and other surfaces, and to prevent the dock from moving when you remove the device, you have two options:

1. use the four velcro dual lock feet provided with the matching dual-lock adhesive pads
2. use two M5 screws and the two screw holes on the bottom of the dock.

Install the Dual lock Feet

1. Stick each dual lock foot together with its dual lock adhesive pad.

2. Peel off the protective liner from the back of the adhesive pads and place them on the bottom of the dock.

3. Peel off the protective liner from the back of the feet, place the dock on a pre-cleaned surface and press firmly into place.

Screw the Dock to a Surface

Use two M5 screws to secure the dock to a surface.

CAUTION: The maximum length of the screw must equal the surface thickness plus 8 millimetres if rubber feet are not installed, 10 millimetres if rubber feet are installed.

Without Rubber Feet

With Rubber Feet

POWER THE DOCK

 **CAUTION:** Use only the Datalogic power supply 94ACC0380 to power the 4 Slot Dock Ethernet.

Press the locking clip and pull the plug to remove the power supply cable:

CHARGE THE MEMOR DEVICE

Insert the slot adapter into the dock.

Insert the device into the dock with the screen facing front and the head facing up.

Charge the Memor Device with Protective Boot

Remove the slot adapter (if inserted).

Insert the device into the dock with the screen facing front and the head facing up.

To remove the device from the dock, pull it upwards while holding the dock firmly down.

DAISY CHAIN CONNECTION

The daisy chain connection allows to power two docks with one power supply.

To connect a second cradle use the Power Jumper (available as optional accessory, p/n 91ACC0049).

- 1. Connect the first dock to the second dock using the power jumper.
- 2. Connect the power supply to the first dock.
- 3. Plug the power supply into the AC/DC plug.

ETHERNET CONNECTION

- 1. Connect the dock to the power supply (available as an accessory, p/n 94ACC0380).
- 2. Plug a CAT-5 ethernet cable into the ethernet port on the back of the dock.
- 3. Plug the ethernet cable into the ethernet hub or a port on the host device.
- 4. Insert the Memor device into the dock.

LED INDICATORS

LED Behavior	Operation Status
Power ON	
Solid blue	Dock is powered

TECHNICAL SPECIFICATIONS

Mechanical Features	
Dimensions	78 (79.5 with slot adapter) x 410 x 125.5 mm / 3.07 (3.13 with slot adapter) x 16.14 x 4.94 in
Weight	1192 g / 42 oz
Electrical Features	
Power supply ¹	Max 12VDC
Consumption	Max 7 A with devices inserted
Indicators	Power on LED (blue)
Communication Features	
Interface	Ethernet
Environmental Features	
Operating Temperature	-20° to 50°C
Storage Temperature ²	-30°C to 70°C
Humidity	95% non condensing
Electrostatic discharge EN 61000-4-2	4 KV contact / 8 KV air

GENERAL SAFETY RULES

-  **CAUTION:**
- Use only the components and accessories supplied by the manufacturer for the specific Memor device being used.
 - Do not attempt to disassemble the Memor 4 Slot Dock Ethernet, as it does not contain parts that can be repaired by the user. Any tampering will invalidate the warranty.
 - Do not submerge the Memor 4 Slot Dock Ethernet in liquid products.
 - For further information or support, refer to the Datalogic web site: www.datalogic.com.

¹ Use only DL approved power adapters.
² The Memor device should be charged at an ambient temperature between 0 - 40° C to achieve the maximum charging rate. Never charge the main device or spare battery in a closed space where excessive heat can build up. Close to the limits of the working temperature, some display and/or battery performance degradation may occur.
