FAST THE DOCK TO A SURFACE

To securely fasten the Single Dock Wireless to tables, desks and other surfaces, and to prevent the dock from moving when you remove the device, use the four velcro dual lock feet provided with the matching dual lock adhesive pads.

1. Stick each dual lock foot together with its dual lock adhesive pad.

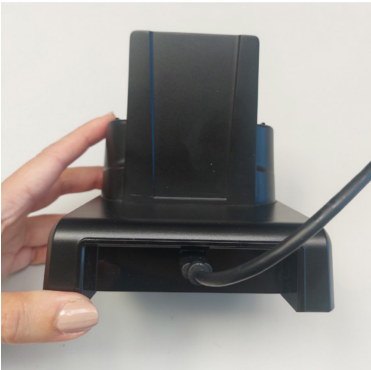

Foot

Adhesive Pad

2. Peel off the protective liner from the back of the adhesive pads and place them on the bottom of the dock.

3. Peel off the protective liner from the back of the feet, place the dock on a pre-cleaned surface and press firmly into place.

POWER THE DOCK

⚠️ **CAUTION: Use only the Datalogic Wall Adapter USB 94ACC0383 in conjunction with the Datalogic USB A to USB Type-C cable 94ACC0327 to power the Single Dock Wireless.**

CHARGE THE MEMOR DEVICE

Insert the device into the dock with the screen facing front and the head facing up.

📝 **NOTE: Do not remove the slot adapter.**

To remove the device from the dock, pull it upwards while holding the dock firmly down.
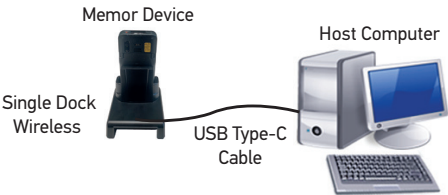

⚠️ **CAUTION: Make sure there is nothing between the dock and the device.**

Do not put any foreign object such as, but not limited to, coins, paper clips, stickers inside the slot of any of the docks.

Do not apply any sticker to the Memor device (see the examples below).

USB CONNECTION

1. Turn on the host computer.
2. Connect the dock to the host computer by means of a standard USB type-C cable.
3. Turn on the Memor device.
4. Insert the Memor device into the dock.
5. Change USB connection mode to File Transfer.

Electrostatic discharge EN 61000-4-2	4 KV contact / 8 KV air

---

1 Use only DL approved power adapters.
2 The Memor device should be charged at an ambient temperature between 0 - 40º C to achieve the maximum charging rate. Never charge the main device or spare battery in a closed space where excessive heat can build up.
Close to the limits of the working temperature, some display and/ or battery performance degradation may occur.
