MEMOR ADAPTERS

Scan/click the QR code to check the availability and compatibility of Memor accessories and adapters:

FAST THE SMART DOCKING STATION TO A SURFACE

To securely fasten the Docking Station to tables, desks and other surfaces, and to prevent the dock from moving when you remove the device, use the four velcro dual lock feet provided with the matching dual lock adhesive pads.

1. Stick each dual lock foot together with its dual lock adhesive pad.

2. Peel off the protective liner from the back of the adhesive pads and place them on the bottom of the smart docking station.

3. Peel off the protective liner from the back of the feet, place the smart docking station on a pre-cleaned surface and press firmly into place.

POWER THE SMART DOCKING STATION

CAUTION: Use only the Datalogic power supply 94ACC0380 to power the Smart Docking Station.

Press the locking clip and pull the plug to remove the power supply cable.

CHARGE THE MEMOR DEVICE

Install the protective boot on the device, or insert the adapter into the smart docking station as shown below.

Insert the device into the smart docking station with the screen facing front and the head facing up.

Memor Device with Protective Boot Memor Device without Protective Boot

To remove the device from the smart docking station, pull it upwards while holding the smart docking station firmly down.

CONNECTIONS

The smart docking station connecting ports enable your device to be used as a workstation computer when connected to a keyboard, mouse, HDMI monitor, printer, external hard disk, flash drive, payment terminal or any other peripheral.

In the minimal configuration you can connect mouse, keyboard and monitor using the ports on the rear side to hide the cables.

USB Connection

1. Connect the smart docking station to the USB device by means of a standard USB to USB cable.
2. Turn on the Memor device.
3. Insert the Memor device into the smart docking station.

USB-C Connection

1. Connect the smart docking station to the USB device by means of a standard USB to USB Type-C cable.
2. Turn on the Memor device.
3. Insert the Memor device into the smart docking station.

Ethernet Connection

1. Plug a CAT-5 ethernet cable into the ethernet port on the back of the smart docking station.
2. Plug the ethernet cable into the ethernet hub or a port on the host device.
3. Turn on the Memor device.
4. Insert the Memor device into the smart docking station.

HDMI Connection

1. Turn on the HDMI device.
2. Plug an HDMI cable into the HDMI port on the back of the smart docking station.
3. Plug the HDMI cable into the HDMI port on the HDMI device.
4. Turn on the Memor device.
5. Insert the Memor device into the smart docking station.

DESKTOP MODE SETTINGS

Desktop Mode preference can be changed from the Memor device, under **Settings > Datalogic Settings > Desktop Mode > Desktop Mode Policy**.

- Mirror screen: copy the device screen. This may produce black bars on the sides to accommodate different orientations.
- External screen (Default): use the external screen.
- Dual screens: operate each screen separately.

LED INDICATORS

1 Use only DL approved power adapters.
2 The Memor device should be charged at an ambient temperature between 0 - 40° C to achieve the maximum charging rate. Never charge the main device or spare battery in a closed space where excessive heat can build up.
Close to the limits of the working temperature, some display and/or battery performance degradation may occur.
