

JANAM XT30-HC

Janam's XT30-HC rugged touch computer is purpose-built for healthcare and helps to improve clinician productivity, streamline operations and elevate patient care. With XT30-HC, healthcare organizations can quickly and accurately access patient records, deliver medication safely and track and manage specimens with ease.

Sleek but tough, XT30-HC is designed with antimicrobial housing to withstand frequent cleaning with a wide selection of disinfectants and help prevent the spread of harmful microorganisms. XT30-HC is equipped with advanced features to provide the highest quality patient care, including superior barcode scanning and RFID/NFC technology, push-to-talk and VoIP voice capabilities and dual-band Wi-Fi with Fast Roaming.

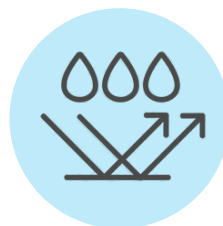

POWERED BY ANDROID

Runs Android 9 and upgradeable to future OS versions

BRILLIANT DISPLAY

Equipped with a bright 5" screen to easily view patient data

RUGGED DESIGN

Sealed to IP65 standards and withstands 5-foot drops to concrete

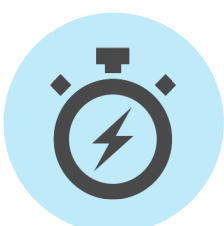

HIGH-PERFORMANCE DATA CAPTURE

Reads all 1D/2D barcodes, RFID/NFC-enabled tags on wristbands, vials, medical records and supplies

HIGH-CAPACITY BATTERY

Includes a 4500mAh removable and rechargeable battery for extended-shift use

POWERFUL PROCESSOR

Features Qualcomm's Snapdragon 2.2GHz octa-core processor for blazing-fast speeds

ULTRA-RELIABLE CONNECTIVITY

Integrated 4G, LTE, Wi-Fi with Fast Roaming, 2x2 MU-MIMO technology, Bluetooth
