# WHAT IS THE MC3300AX MOBILE COMPUTER?

## Future proof with Wi-Fi 6 and the next generation in device tracking technology

The MC3300ax builds on the highly successful MC3300x to create the most advanced MC3300 mobile computer yet. Latest connectivity with Wi-Fi 6 delivers unmatched performance by offering lower latency in high density environments along with future proofing. The complimentary Enterprise Browser provides a feature rich, secure web browser which makes it easy to create intuitive apps that drive productivity and efficiency. The optional BLE-enabled battery with Zebra's Device Tracker provides additional visibility over your assets. And you also get the same hard-working ergonomics, the enhanced rugged design of the MC3300x, Android 11 and the advanced SD660 platform that provides blazing fast application performance.

ZEBRA
CAPTURE YOUR EDGE

# WHY SHOULD YOU BUY THE MC3300AX?

## TOP 5 CUSTOMER BENEFITS

### 1

**Ready for Wi-Fi 6.**

The rugged mobile computer you buy today needs to be relevant for years to come. Future proof your investment with the MC3300ax, the first device in its class to support Wi-Fi 6. Offering greater capacity and lower latency, Wi-Fi 6 enables your Wi-Fi network to accommodate more devices, more connections and more traffic — paving the way for augmented reality, virtual reality, IoT sensors and more. And since the MC3300ax can connect to legacy networks, you're covered no matter where you are in the wireless journey.

### 2

**Reap the benefits of your mobility solution faster.**

Your workers want intuitive modern applications. Your business needs fast, risk-free development cycles. Zebra's Enterprise Browser delivers. Complimentary on every MC3300ax, this next generation secure browser makes it easy to create applications with highly-graphical and intuitive user interfaces that drive productivity and accelerate onboarding. And a simplified development approach lets you develop and launch applications faster than ever.

### 3

**Maximize device availability — and worker productivity.**

Zebra offers value-add tools that keep devices in the hands of workers. With the optional BLE-enabled battery and Zebra's Device Tracker, you can quickly identify and locate missing and misplaced devices — even if they are turned off or have a depleted battery. This cloud-based, end-to-end solution is designed for any size business, from one small location to many locations all around the world. The result? Maximum device availability, workforce productivity and return on device investment.

### 4

**Zebra's most powerful Android architecture.**

With the most powerful processor and most memory in its class, the MC3300ax is capable of handling today and tomorrow's demanding applications with ease. You get the latest version of Android, with a superior OS roadmap and built-in support through Android 14. Zebra's LifeGuard™ for Android™ provides security patches to keep devices secure every day they are in service and devices can even be updated automatically to ensure the latest security patch is always installed.

### 5

**Migrate to the latest technology with confidence.**

For over a decade, the popular MC3000 has set the bar for hard-working ergonomics and reliability in warehouses, retail stores and manufacturing plants worldwide. With the next generation MC3300ax, you get the same lightweight ergonomic design for all day comfort. Its field-proven rugged construction is designed for maximum uptime just like the MC3300x. And backward compatible accessories minimize the cost of upgrading to the very latest technology.

## APPLICATIONS

**Warehousing/Distribution**

- Warehouse management
- Picking and putaway
- Returns processing
- Voice-directed applications
- And more...

**Manufacturing**

- Inventory management
- Supply-line replenishment
- Safety testing
- And more...

**Retail**

- Backroom management
- Price verification/updates
- Store receiving
- And more...

## ROI

- Improved productivity and throughput
- Enhanced customer service
- Lower upgrade and migration costs
- Maximum return on investment with future-proof platform
