## WHAT IS THE TC21-HC/TC26-HC MOBILE COMPUTER?

### The ultimate cost-effective mobile computer built for healthcare.

With the affordable WiFi-only TC21-HC and WiFi/cellular TC26-HC mobile computers, you can give all your non-clinical healthcare workers the tools they need to deliver the highest quality patient care. These small, easy-to-carry devices are big on features, offering the latest in advanced mobile technologies, removable batteries for dependable around-the-clock operations and the power to run all the applications you use today and tomorrow. And the durable design with healthcare plastics is ready for constant disinfecting.

## WHY SHOULD YOU BUY THE TC21-HC/TC26-HC?

### TOP 5 CUSTOMER BENEFITS

1

#### A new level of features for ancillary workers.

The TC21-HC/TC26-HC offers the right price and feature set for your non-clinical workers, enabling you to put a disinfectant-ready healthcare mobile computer in the hands of more workers. Now, your non-clinical staff has access to healthcare applications and collaboration tools. And the 13 MP rear camera is ideal for capturing photos and occasional barcodes — from documenting an issue that needs repair to scanning a patient wristband to ensure the right patient receives the right meal.

2

#### Connect more healthcare workers, no matter where they are.

With the TC21-HC (WiFi only) and TC26-HC (cellular/WiFi) devices, you can connect workers wherever they are — food services staff inside your facility, patient transport employees on the move throughout the campus, facilities workers traveling between buildings and in-home caregivers. Zebra's unmatched collaboration tools include affordable two-way radio functionality — or you can turn devices into fully-featured PBX handsets.

3

#### Ready to work around the clock.

Your healthcare operations never stop — and neither does the TC21-HC/TC26-HC. With removable batteries, devices never need to be taken out of service to charge between shifts. A durable design can handle spills, drops, dust, rain and extreme temperatures. Built with chemical resistant healthcare plastics, the TC21-HC/TC26-HC can withstand regular cleaning with over 30 disinfectants. And the purpose-built housing and pre-installed USB plug help minimize crevices where bacteria can hide.

4

#### Guaranteed security every day your device is in service.

You are investing in a device that you plan to keep in the hands of your staff for years to come. The TC21-HC/TC26-HC offers the lifecycle you need. Available with Android 10 today, the TC21-HC/TC26-HC provides built-in support for a future Android release. And Zebra's LifeGuard™ for Android™ (included with your warranty and all Zebra OneCare Support Service agreements) provides up to six years of security updates for Android.

5

#### More than a device.

Zebra's industry-leading Mobility DNA, offers unparalleled value. With Mobility DNA Professional, these powerful complimentary tools are pre-loaded and ready to use, making it easy to get your devices up and running, capture and send data to your applications, keep your devices secure and more. The optional Mobility DNA Enterprise License unlocks additional tools to boost workforce productivity and make it even easier to secure and manage large deployments.

### END USERS

#### Non-clinical healthcare workers

- Patient transport
- Food services
- Environmental health services
