

## WHAT IS THE TC5X SERIES MOBILE COMPUTER?

### The ultimate in rugged design, performance, productivity and ease of use

When you choose the Zebra TC52x, TC52ax or TC57x, you get our best-selling TC52/TC57 rugged handheld mobile computer — and more. The Wi-Fi only TC52x and the Wi-Fi/cellular TC57x support the latest mobile innovations, paving the way for new apps such as payment solutions. And the Wi-Fi only TC52ax adds Wi-Fi 6, a new scan engine option with increased range and IntelliFocus™ technology, double the memory to boost application performance and more. And all models offer a superior Android roadmap with built-in support up to Android 14 and security updates to protect your device every day it is in service.

## WHY SHOULD YOU BUY THE TC5X SERIES?

### TOP 5 CUSTOMER BENEFITS

# 1

#### Over 2.5 million can't be wrong.

More than 2.5 million TC5 devices have been delivered for retail, field service, delivery, light postal, transportation, and healthcare applications. This wide range of customers, use cases, deployments and environments has generated unmatched experience and that experience, strength and integrity are inside every TC5X device. When you choose the TC5X Series, you are getting Zebra's most successful enterprise touch platform — now with more advanced features and innovation.

# 2

#### All the latest advancements.

Simply put, the TC5X Series offers the most advanced enterprise computing platform on the market. You get all the power of Android 10 and 11<sup>1</sup> — with built-in support for Android 14. A Full HD display is easy to read inside or in bright sunlight. The smart PowerPrecision+ battery provides up to 14 hours of run time and is easy to swap. You also get lightning fast barcode capture, the highest voice quality in its class, superior Wi-Fi and LTE connections, and maximum application performance with a 2.45 GHz processor and fast UFS storage.

# 3

#### Ready for the future.

Don't worry about premature device obsolescence. The advanced computing platform is capable of handling today and tomorrow's demanding applications with ease. You get built-in support for future payment solutions, support for hands-free directed-action workflows with Zebra's HD4000 head-mounted display, and rich locationing support. And the TC52ax adds Wi-Fi 6, a new scanner option with intelligent focusing and the new Workstation Connect to create a mobile-driven workstation.

# 4

#### Keep using the TC5 Series accessories you have today.

Backward compatibility means you get the benefits of the latest platform while using your existing TC5 Series accessories. New accessories include a single slot cradle that can charge a device and spare battery, an electronic trigger handle that enables rapid-fire scanning and a metal stylus that works in the rain and snow. And with Zebra's platform approach, applications created for the TC5 will seamlessly migrate to the next generation.

# 5

#### Mobility DNA — your device's built-in advantage.

Zebra Mobility DNA provides powerful tools that no other competitive product can offer — features that ensure your device can remain relevant, performing with amazing agility and delivering strong ROI over its entire lifecycle. For example, easily stage devices with StageNow; find misplaced devices — even if the battery is dead — with Device Tracker and add push-to-talk over Wi-Fi or cellular. LifeGuard™ for Android™ provides security patches that keep your devices secure, every day they are in service.

### APPLICATIONS

#### TC52x/TC52ax (WLAN)

- Retail: associates, managers and merchandisers
- Warehouse (TC52ax)
