

JAMISON | RFID

The World's Leading Manufacturer of:

- RFID Portals and Housing Structures
- RFID Mounting Hardware and Components
- RFID Plug 'n Play Units
- RFID Installation Services

Mini-Hawk™ RFID Portals

Mini-Hawk RFID Portals include two High Gain Circular Polarity antennas, and the RFID Reader of your choice. The unit can be configured in manufacturing- or out in the field to provide maximum integration flexibility.

Mini-Hawk™ RFID Portal

Information:

- The Jamison RFID Mini-Hawk™ is a small wall mount RFID unit for collecting tag data only, without additional alarms and electronics. At 23.5" long, 12" wide and 2.5" deep, the Mini-Hawk is lightweight and mounts quickly and easily. Simply plug in your Ethernet cable and you are reading tags.
- Plug and Play: Easy integration of the latest back-end systems, all wiring, connectors, and cabling are in place
- Flexible Antenna Positioning (180 Degree Adjustability)
- Easily Removable Cover
- Out of the Box "Ready To Use"
- Installation available
- Optional 90-Degree wall, ceiling or door frame mounting brackets

Specifications:

- Chassis- 18-gauge powder-coated steel
- Cover- White ABS
- Dimensions-
 - Height: 23.5"
 - Width: 12"
 - Depth: 2.5"
- Weight- 5 lbs. (without RFID Reader)
- Mounting-
 - Keyhole slots, clearance holes, and integrated threaded ¼ turn fasteners
 - VESA MIS-D, 100/75, C (M4 X 7 mm thread depth)
 - Conduit knockouts for easy termination of conduit
 - Pass-through knockouts on back (data / power cabling)
- Power- Power over Ethernet (PoE) IEEE 802.3af
- Environmental- IEC IP52
- LAN- Standard Ethernet Port, RJ45 Connector
- Communications- 10/100BASE-T Ethernet cable
- Cabling Options- Cableways and Guides included
- Warranty- 1 Year

JAMISON | RFID

Mini-Hawk RFID Portal:

Includes RFID Reader and Two High Gain Antennas with Highly Customized Antenna Mounts, for total Azimuth/Pitch flexibility.

Jamison RFID Portals™ ROCK!

Jamison RFID is the World Leader, and can always be counted on to- Define, Design, Develop and Deliver RFID Portals for multiple applications.

Mini-Hawk™ RFID Portal

Hawk Features

Hardware Independent

Antenna Movement

Sleek Design

Easy Installation

Easy Integration

Hawk Benefits

The Mini-Hawk™ portal is designed to accommodate different RFID reader configurations giving the user the most scalable and flexible solution.

Uses antenna mounts that allow for 180 Degree directional movement, creating the most optimal Read zones.

The Mini-Hawk design is made for indoor Office / Healthcare types of applications, in whereas a “directed” Read Zone is needed, yet something small, cost-efficient and functional is optimal.

The portal can be installed in under 15 minutes.

The portal takes advantage of the latest RFID systems to allow easy integration into back-end system infrastructures.

About Jamison RFID

Since 1906, Jamison Door Company has pioneered the industrial door industry with innovative designs, unsurpassed product quality, and outstanding customer service. Jamison's RFID Division produces the world's largest variety of RFID (Radio Frequency IDentification) portals, housing structures, mounting components, and custom designed enclosures, that help track products using RFID during the manufacturing process and throughout the entire supply chain.

Jamison services over 6000 warehouse, retail, and supply chain customers from its Headquarters in Hagerstown, MD. Jamison also offers fully-staffed engineering, customer service, and shipping departments. Jamison currently has four North American manufacturing plants; in Maryland (2), Montana, and Mexico.
