

# Zebra ZD200 Series Desktop Printers

## FREQUENTLY ASKED QUESTIONS

**Q: What is the ZD200 Series?**

A: The ZD200 is Zebra’s value class printer. This printer is targeted at customers that are looking for a “good enough” printer. It is primarily USB connected with entry-level features for customers that care more about price than offerings. The ZD200 will come in two models:

- The ZD220 is a direct replacement for the GC420. This printer is targeted primarily at the North America and Western Europe (EU) markets.
- The ZD230 offers more features than the ZD220. This printer is targeted at customers that are price buyers but require specific features not commonly found on a value-class printer. The ZD230 will only be available to customers in geographies where a better-class printer (ZD420) is not economically viable but the customer requires features that are typically only found on a Zebra better-class printer (300 M ribbon, wireless connectivity, etc). This includes developing markets outside of Europe, China, parts of Asia and Latin America. The ZD230 will be positioned as a “quasi-ZD420” in those areas, effectively bridging the gap between a low-feature, value printer and a more fully featured ZD420. The ZD230 will NOT be available as a channel product in NA or the EU
- The ZD200 Series will only include a limited set of Link-OS capabilities referred to as Link-OS Basic

**Q: What are the key customer benefit messages of the ZD200?**

- Not a one-size-fits-all approach to printer capabilities.
- Customers in the value-tier market tend to frequently replace printers. Backwards compatibility is maintained as the ZD220 is a direct replacement for the GC420 to minimize transition and training requirements. The ZD230 is also designed as a drop-in replacement for Zebra value-class printers.
- Lower price, but same Zebra quality.

**Q: What are the target markets and applications for the ZD200?**

MARKET	APPLICATON	USER
<b>PRIMARY:</b>		
<b>Manufacturing</b>	<ul style="list-style-type: none"> <li>• Product Labeling</li> <li>• Asset Management</li> <li>• Inventory Management</li> <li>• Work in Process Tracking</li> </ul>	<ul style="list-style-type: none"> <li>• Line Workers</li> </ul>
<b>T&amp;L</b>	<ul style="list-style-type: none"> <li>• Shipping Labels Cross Docking</li> </ul>	
<b>Retail e-Commerce</b>	<ul style="list-style-type: none"> <li>• Shipping labels</li> </ul>	<ul style="list-style-type: none"> <li>• Shipping personnel</li> </ul>
<b>SECONDARY:</b>		
<b>Healthcare</b>	<ul style="list-style-type: none"> <li>• Patient Identification</li> </ul>	<ul style="list-style-type: none"> <li>• Admissions personnel</li> <li>• Nursing staff (clinics, ER)</li> </ul>

**Q: What are the feature differences between the ZD220 and the ZD230?**

	ZD220	ZD230
<b>Max Print Speed</b>	4 ips	6 ips
<b>Connectivity</b>	USB-only	USB-only USB+Ethernet USB+BT USB+802.11ac+BT
<b>Media Handling Options</b>	Peeler	Peeler Cutter
<b>Thermal Transfer Ribbon</b>	74M only	74+300M
<b>White Plastic Option</b>	No	Yes

**Q: Can a customer purchase a printer that is not offered in their geography?**

A: Yes, if the situation warrants offering a printer not sold in the region please contact your regional product manager to discuss the opportunity.

**Q: The ZD230 is offered with a white shell, is this a healthcare model?**

A: No, a Zebra healthcare printer has a special power supply and UV stabilizers in the resin. The white ZD230 does not offer these features.

**Q: Can any of the communications or media handling options be installed in the field?**

A: No, these must be installed at the factory. Customers that may want field installable options should purchase a ZD420.

**Q: How do the features of the ZD200 compare to the GC420 and GT800?**

Feature	GC420	GT800	ZD220	ZD230
<b>Maximum Print Speed</b>	4 ips	5 ips	4 ips	6 ips
<b>Print Resolution</b>	203 dpi	203 dpi or 300 dpi	203 dpi	203 dpi
<b>Standard Connectivity</b>	Serial, USB, Parallel	Serial, USB, Parallel	USB	USB
<b>Optional Field Installable Connectivity</b>	None	None	None	None
<b>Optional Factory Installed Connectivity</b>	None	10/100 Ethernet (replaces parallel)	None	USB+Ethernet USB+BT USB+802.11ac+BT
<b>Media Handling Options</b>	Factory installed peeler	Factory installed peeler or cutter	Factory installed peeler	Factory installed peeler or cutter
<b>Ribbon Handling</b>	74 meter (GC420t)	Dual ribbon handling - 74 or 300 meter	74 meter (ZD220t)	Dual ribbon handling – 74 or 300 meter
<b>Media Sensors</b>	Fixed transmissive and reflective	Full width reflective and multi-position transmissive	Limited range reflective sensor from center to left side and fixed transmissive	Limited range reflective sensor from center to left side and fixed transmissive

**Q: What is Link-OS Basic?**

A: Link-OS Basic is a core set of Print DNA software applications. Please visit [www.zebra.com/linkos](http://www.zebra.com/linkos) for more information

**Q: Are the ZD200 Series printers backwards compatible with other Zebra printers?**

A: The printer has dual resident command language. The co-existent EPL2 and ZPL allows for seamless integration into legacy and current installations. You can swap your older EPL2 or ZPL based desktop printers or add to existing applications.

**Q: Can I use linerless media with the ZD200?**

A: No, linerless media can be used in the ZD620d.

**Q: Am I limited to use only one connectivity type at one time?**

A: No. The all the printer’s connectivity options can be used simultaneously.

**Q: Does the ZD200 offer a 300 dpi print resolution option?**

A: No, the ZD420 offers 300 dpi print resolution.

**Q: How much memory is standard on the ZD200 printers?**

Total Memory	User Available
256 MB Flash	50 MB Flash
128 MB SDRAM	8 MB SDRAM

**Q: Can I get an RFID enabled ZD200?**

A: No. The only desktop printer offered by Zebra with UHF RFID is the ZD500R. The ZD500R will remain for sale and not be included in any discontinuation schedule at this time.

**Q: Can I use my external ZebraNet print server on the ZD200?**

A: No. The external print servers are not supported.

**Q: Does the printer have a Real-Time Clock?**

A: No, the ZD200 Series printers do not offer a RTC. The RTC feature is available on factory installed Ethernet and dual wireless configurations of ZD420. It is a standard feature on all ZD620 configurations.

**Q: Will the Zebra Keyboard Display Unit (ZKDU) work with the ZD200?**

A: No, the ZD200 does not offer a serial port interface.

**Q: What ribbons can I use in the ZD200t?**

A: The ZD220t can accept 74 M ribbons. The ZD230t can accept 74 M or 300 M ribbons. Ribbons used on GC420t and GT800 printers can be used in the ZD200t.

**Q: Can I use third-party ribbons in the ZD200t?**

A: Zebra recommends to always use genuine supplies in the printer. The ZD200t will accommodate use of third-party ribbon via way of the included ribbon core adapters.

**Q: Can I use my existing media in the ZD200?**

A: Yes. Common media handling means that your Zebra desktop media can be used in the ZD200 Series printers.

**Q: Can I use fan-fold media in the ZD200?**

A: The printer supports the use of externally fed media via way of the letterbox aperture at the back of the printer.

**Q: My media roll has a 50mm core. Can I use it in the ZD200?**

A: Yes. In addition to the standard media roll holders supporting 0.5 in and 1 in. cores, we have accessory items to support 1.5 in., 2 in., and 3 in. core sizes.

**Q: Can the ZD200 printer support Asian fonts?**

A: The printer's Unicode capabilities can be utilized for true global character printing. If however, a specific font pack such as Japanese, Chinese, and Korean is required, then please refer to the printer price list for details of the available font packs. Chinese printer configurations include the Simplified Chinese SimSun font pre-installed.

**Q: Can I use my 28-series or G-series power supply with the ZD200 printer?**

A: No. The ZD200 printer ships with its own 75W/24V power supply and this should be used in all cases.

**Q: Does the printer have Energy Star approval?**

A: Yes. The printer and power supply are Energy Star Certified, and meet the US Department of Energy's Energy Efficiency Level VI requirements.

**Q: What service offerings are available for the ZD200?**

A: Zebra recommends the Zebra OneCare SV (Special Value) service offering. Zebra OneCare SV acknowledges that all products don't warrant a comprehensive service offering. Zebra OneCare SV is a 2 year support service that includes:

- Wear and Tear coverage
- Upgraded 5 Day Depot TAT
- Free return ground shipping from Depot
- Live 8x5 Technical Support Access

Additional information can be found at [Zebra.gosavo.com](http://Zebra.gosavo.com)

**Q: Where can I find tutorial videos?**

A: Yes, the ZD200 printer "how to" support videos can be viewed online at [www.zebra.com/zd200-info](http://www.zebra.com/zd200-info)

## FREQUENTLY ASKED QUESTIONS

### ZD200 SERIES PRINTER
